# Rosamarie Primary School

opening February 2025

## Bright futures start here: We are touching lives forever

We are pleased to announce that our new school, the Rosamarie Primary School, is about to be finished and will open in February.

### Our vision

To create a community where all children feel loved, respected and encouraged to develop to their full potential

### Our mission

To provide high-quality education and childcare in a safe, respectful, and inclusive environment that builds a foundation for long life

## Our story

Rosa Marie Primary school is build in cooperation with Sopadad Initiatives, a non-profit organisation wellbeing of abandoned children in situations of poverty, illiteracy and social injustice. To our „super dad“, we need our new school as „super mom“ who makes education accessible for children of all gender and backgrounds.
